

# Ball Brass & Aluminum Foundry, Inc.

| <u>Material Type</u> | <u>Description</u>             | <u>Current Surcharge</u> |
|----------------------|--------------------------------|--------------------------|
| C836                 | 115 Leaded Red Brass           | \$0.37                   |
| C838                 | 120 Leaded Red Brass           | \$0.96                   |
| C844                 | 123 Semi Leaded Red Brass C844 | \$0.33                   |
| C863                 | 424 Manganese Bronze C863      | \$0.08                   |
| C865                 | 421 Manganese Bronze           | \$0.68                   |
| C87850               | Eco Brass                      | \$0.93                   |
| C89833               | FEDERALLOY                     | \$1.06                   |
| C922                 | 245 Leaded Tin Bronze C922     | \$0.25                   |
| C932                 | C932 (B315 83-7-7-3 )          | \$0.51                   |
| C954                 | 415 Aluminum Bronze C954       | \$0.93                   |
| SP 81                | Special 81 (C844 + 1.5% Ni)    | \$1.65                   |
| ZA12                 | Alum-Zn 12%Zn                  | \$0.53                   |
| 356                  | 356 Aluminum                   | \$0.06                   |
| 535                  | 535 Almag35 Aluminum           | \$0.52                   |
| 713                  | 713 Tenzalloy 81A              | \$0.06                   |
| C958                 | Nickel Aluminum Bronze         | \$0.48                   |
